

August Newsletter

Because it's time to prepare for going back to school, it's important to address **disengagement in students**. Factors such as stress, fear of bullying, and the pandemic have led to low attendance and engagement (Bae, 2020). Faculty are also feeling the burnout of having overwhelming work loads and low support. It's crucial that trust and communication is strengthened between faculty and students this school year to help ensure both parties' needs are met.

7 Leaves Fundraiser

On July 15th in Anaheim, we had our 7 leaves fundraiser where 20% of your purchase was donated to us to help us continue to provide resources and support for those with a mental health issue. Thank you to everyone who came out and supported us! If you missed this one, don't worry because we will be hosting another 7 Leaves fundraiser soon!

Join Our Community

You can always subscribe to our newsletter and follow us on social media to be a part of our community!

We're currently looking for grant writers, director of operations, secretary, and board positions. If you're interested in joining our team, you can apply [here!](#)
